

PNT Pay Air offers a source of revenue for fuel stations. Following the trend of the North American and European market, our company brought this concept to turn the expenses with the tire gauge into daily revenue. This digital tire gauge has a remote control that allows free air service to loyal customers.

Ideal for calibrating tires of cars, trucks, buses, motorcycles, and bicycles quickly and safely.

Easy operation

Resistant keyboard

Aluminum cabinet

Remote control for free release

PRODUCT FEATURES

Applications:	Vehicles:	Technical Specification:
Gas Stations	Cars	Setting Pressure: 4 - 145 Psi (0,3 - 10 Bars)
Parking lot	Motorcycles	Weight Net/Gross: 17/19 Kg
Public Parks	Vans	Dimensions: 40 x 50 x 19 Cm
Malls	Trucks	Voltage: 220 Vac
	Minibuses	Max Consumption Power: 10 Watts
	Buses	Operating Temperature: 0 to +50°C
	Bicycles	Compatible: Air and Nitrogen

► Additional Information:

- Easy installation;
- Low energy consumption;
- Fast, safe and precise calibration;
- 1 year warranty;
- Audible and visual signals at the end of operation;
- Waterproof and dustproof;
- Converts pressure unit to PSI/BAR, BAR/PSI
